

# JUNGLE PARTY

MN  
XY

**RULEBOOK**

## GOAL OF THE GAME

### THERE IS A PARTY IN THE JUNGLE!

Swing along with the monkey and see who's come to visit the jungle. Throw a party with the lion, rhino, zebra and many other animals. But wait, not all animals are complete! Collect the correct animal game pieces by walking around with the monkey. If you play smart, the monkey can run and swing faster, or slower. What's the best move? Complete the animals and celebrate your own jungle party. Are you the first to do that? Then you've won this adventurous game!

## CONTENTS

## SETUP

Place the gameboard in the middle of the table. Then place the 2 gameboard pieces on the indicated spaces on the gameboard. Take the animal game pieces and decide which side you want to play with. The side with the coloured background is a bit easier than the side with the white background. Make eight piles of seven animal game pieces and arrange the piles in a circle, with the side you want to play with facing up. Place the monkey on top of one of the piles; you can choose which one. Shuffle the cards and place them face down in a pile next to the gameboard.

## IN SHORT

The monkey on top of a pile keeps walking in circles, from pile to pile, always in a clockwise direction. On your turn, you can let the monkey take three steps (piles) and collect the animal game piece on which the monkey stops. If you are using a card, let the monkey take the exact amount of steps that is on the card, which is always more or less than three steps. Collect the animal game pieces. Did you complete an animal? Then you can place it in your own jungle.

## THE GAME

The game is played in turns. The player who has been to the zoo most recently, begins. Then it is the next player's turn, in a clockwise direction.

When it is your turn, you can choose one of the following options, after which your turn will be over:

1

### DRAW A CARD

Draw a card and place it face up in front of you. Do not take an animal game piece on this turn.

2

### PLAY A CARD

Hand in a card that is lying in front of you, and move the monkey as many steps forward as the card indicates (in a clockwise direction). Take the upper animal game piece from the pile on which the monkey stops, and place this animal game piece in front of you.

3

### TAKE 3 STEPS

You do not use any cards, and move the monkey three steps forward (in a clockwise direction). You take the upper animal game piece from the pile on which the monkey stops, and place this animal game piece in front of you.

You can keep the cards as long as you like, and hand them in on a turn of your choice. When you hand in a card, you place it with the amount of steps facing up on a discard pile. If the pile of draw cards is empty, shuffle the discard pile to create a new draw pile.

**Please note!** You may only play 1 card per turn.

Place the animal game pieces you collect in front of you. If you are able to make an entire animal, you can put those pieces together. That is your jungle. Animals that are not yet complete should not be placed in your jungle. Your jungle may contain two or more of the same animal.

example: 2 completed animals

When a pile of animal game pieces is empty, this pile will not count as one of the steps you take anymore.

## END OF THE GAME

The player who is the first to have their own circular jungle with completed animals, wins the game!

## VARIANTS

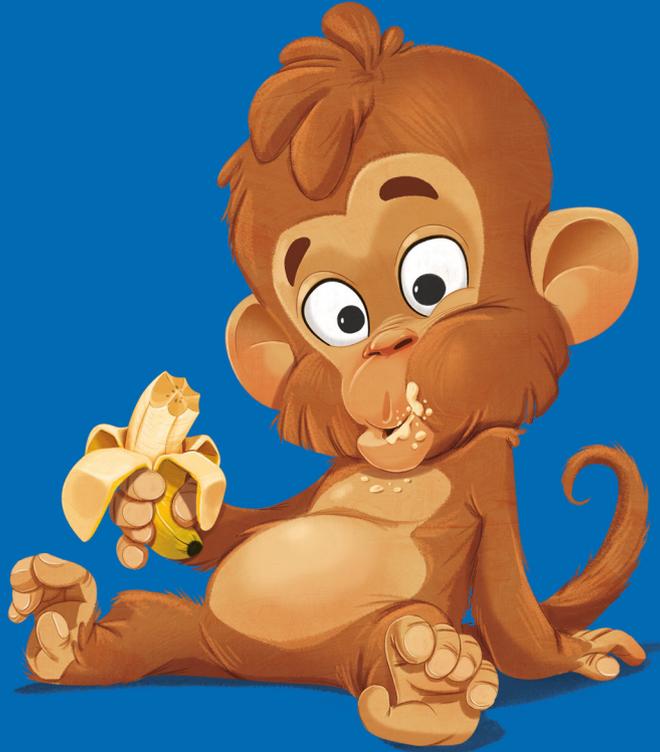

**To make the game a bit more difficult, play it as follows:**

All of the rules stay the same, but you are not allowed to have two or more of the same animal in your jungle.

**If you have become very good at the game, this will be fun:**

All of the rules stay the same, but now there are three additional rules:

- You are not allowed to have two or more of the same animal in your jungle.
- You have to keep all of the cards that you collect hidden from the other players.
- You are allowed to hand in several cards at once on your turn. To calculate the total amount of steps you can take with the monkey, add up all of the steps on the cards.
